

Client Testimonials

This was my first development project and working with Mitiz Technologies was a very rewarding experience. He does great work and makes excellent suggestions on how to best develop the desired functionality. Throughout the development project Pankaj was very professional, responsive and his communication was always prompt, courteous and timely. He turned my vision for the software application into reality. I'm very happy with the results and I look forward to working with him more on future enhancements to the current software application, as well as working with him new projects. In closing, I highly recommend him to those who are looking for a good

Paul Tetley, GlobalView GRC, Canada

Best programmer I have ever worked with. He reads my mind and produces what I have imagined.

James Struss, uHeard, USA

Pankaj has done an excellent job going beyond the set of requirements provided. He anticipates needs and puts forth solutions. Highly recommend!

Alex, CCA USA

Good resoure having Drupal 7 skills. My project was triicky and included the development of a custom module development along with integration with Ubercart. They did great work with excellent ommunication skills. Role of Project Manager was highly appreciated. Highly Recommended!!

Mark Travers, Hudu, Australia

Did a great job on a difficult project. Had to deal with previous contractors poor work and handled it very well. Highly recommend.

Mel Barnes, Vision IP LLC, Canada

Ritesh, did a great job on an extremely difficult project, It went over estimation but the work was of top quality and we actually saved time in debugging

Richard Neate, ClickEnforcer, Australia

It's been great working with Mitiz for the many years and we continue to do work with them.

Steve Marin, Nextcode Inc., USA

Great quality work. Good communication as well makes Pankaj a pleasure to work with.

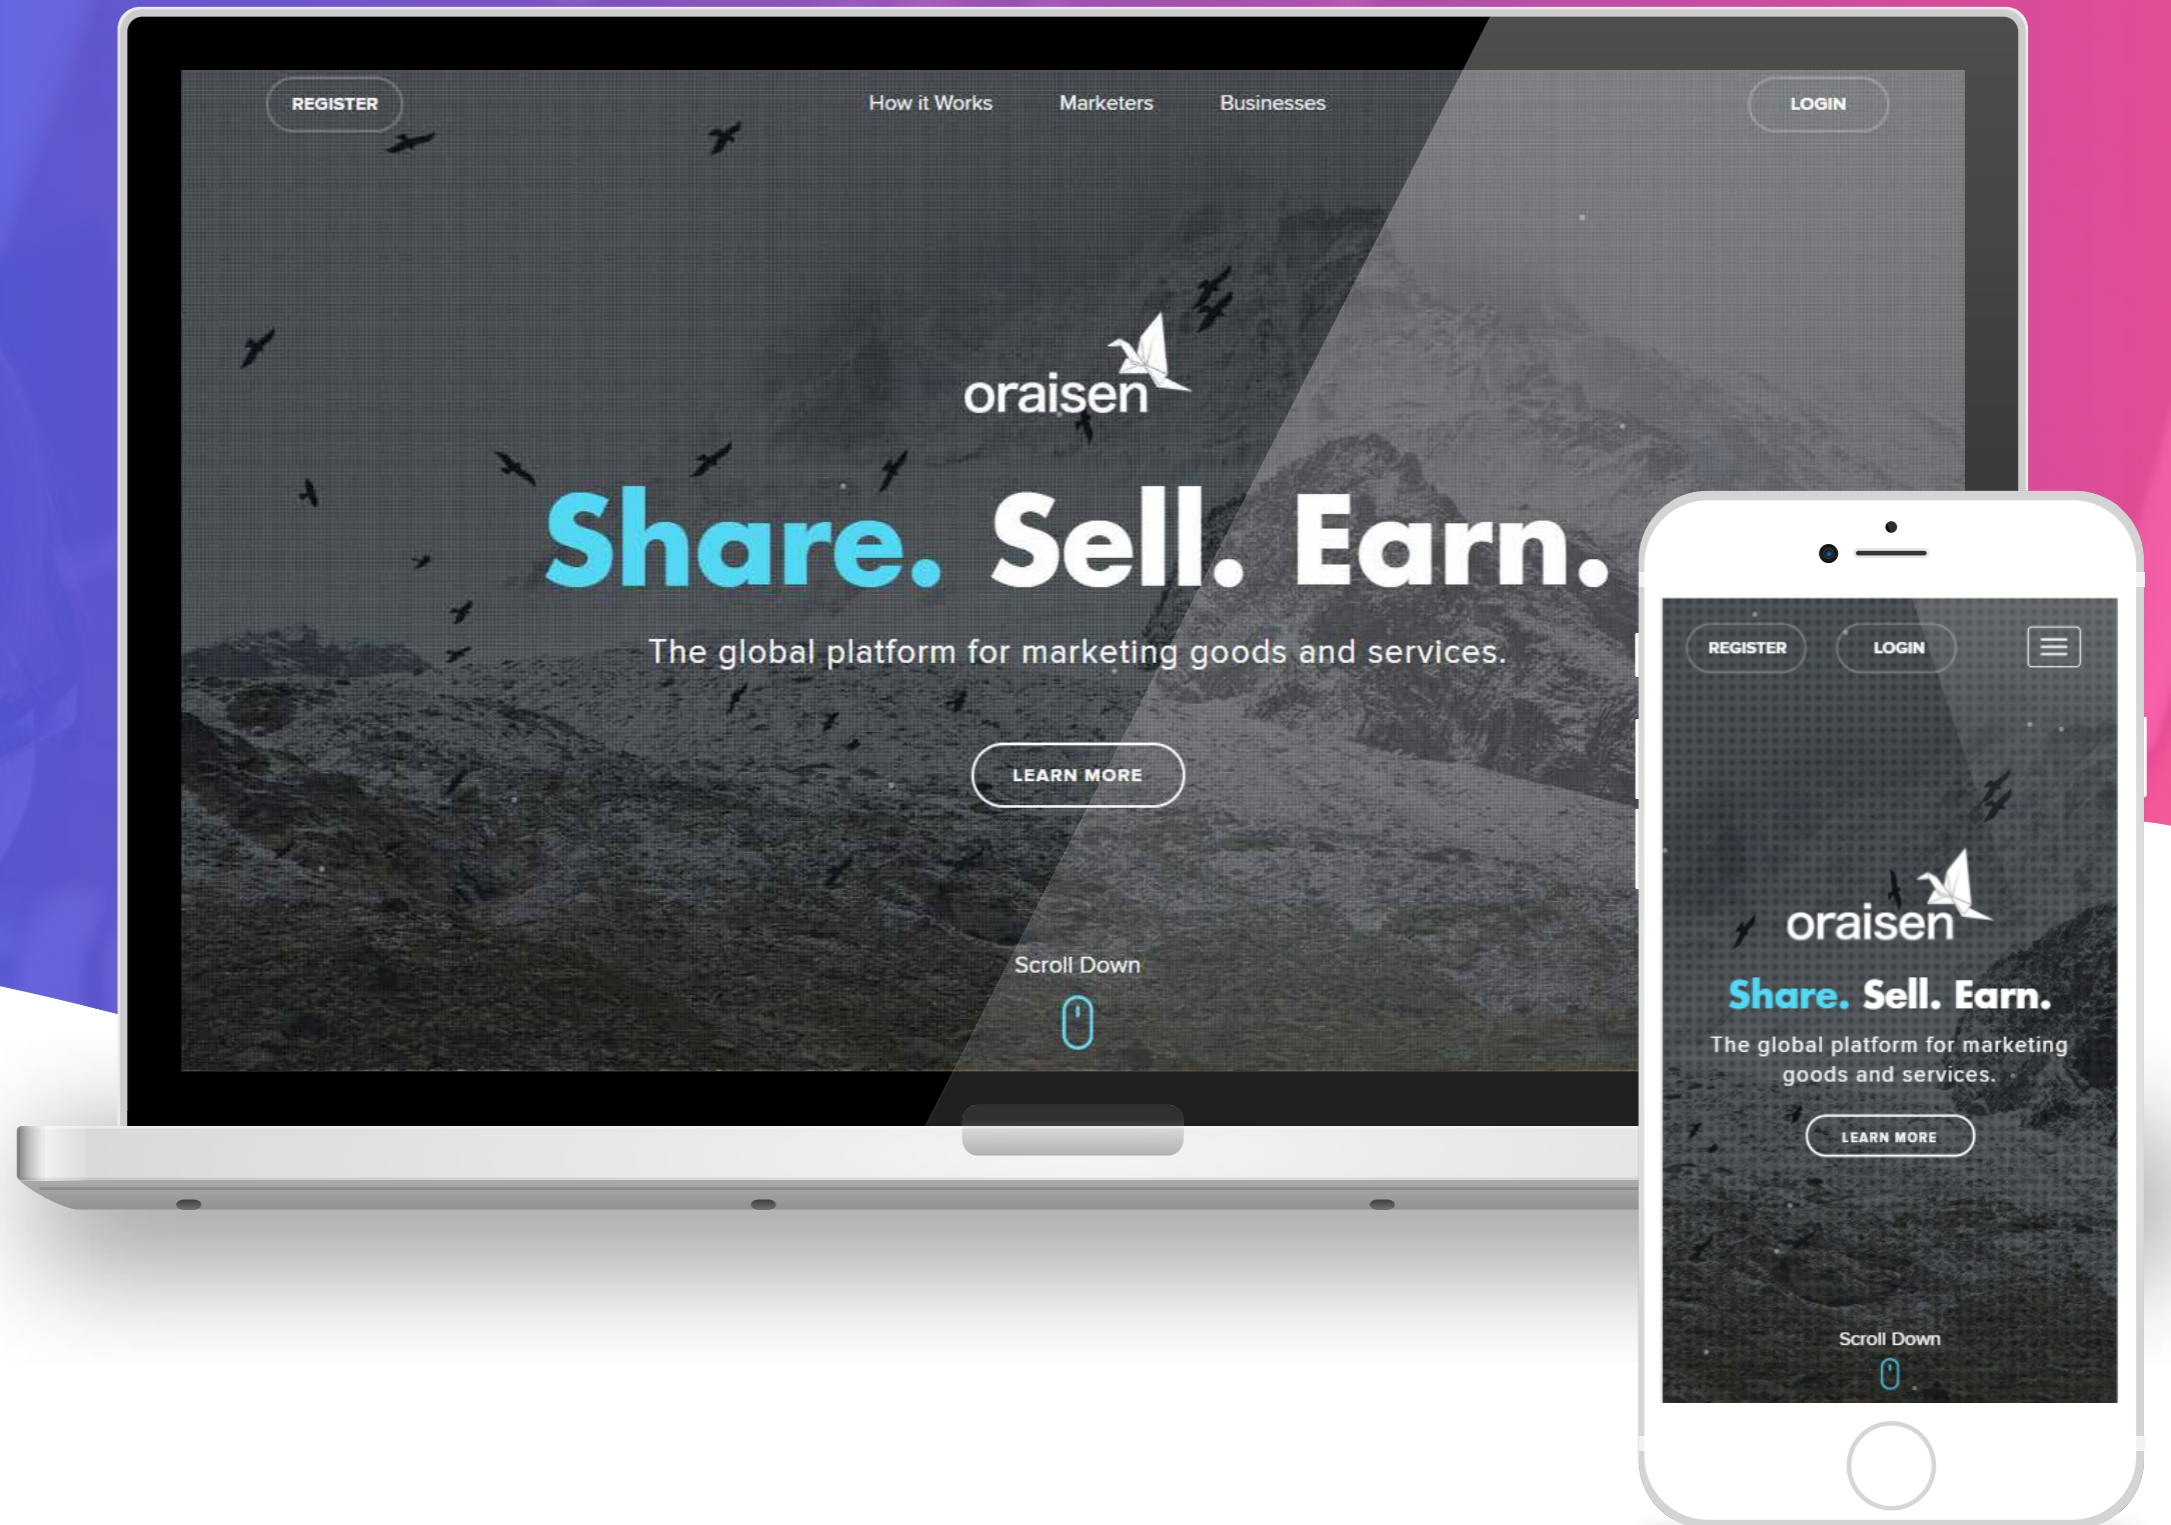

William D. Ambrose, Canada
